They must have taken it down from their website in the last few weeks... I don't believe we have a copy saved, but I can reach out to CO next week if we can't track it down.

Elizabeth Thomas identified the following web address that we had cited for the "Initial Economic Impact Analysis for Proposed revisions to Colorado Air Quality Control Commission Regulation Number 7" as not working. I tried it as well and confirmed it is invalid. I am unable to find an updated link to the analysis, so am thinking it is no longer available online. Did we save a copy of it somewhere other than the I drive restricted share location that we could just upload to the docket and reference the docket?
